Increased Budget To Prevail In The Coming Fiscal Year

Interesting Figures Released By City Clerk Wallis On City Operation Costs

Each year when the time comes to make up the annual tax roll and the city budget, figures show that Belle Glade is really growing at a fast rate. Basing his tax valuations on the Huncutt appraisals, Clerk Wallis, has a long and arduous job on his hands, so to get the computations up in time for consideration in August. He now has ready for use of the Commission to set the budget figures and make the annual millage levy.

The tax valuation for 1949 shows a total valuation of \$7,011,913, less \$1,386,270, Home-stand exemptions; less \$612,793, 50 in other exemptions; or a total exemption of \$2,141,043, a net valuation of \$4,868,940.50, plus \$1,386,270, in other exemptions or a grand total of \$6,255,210.50.

The total valuation in 1948 was \$6,048,477.50. The home-stand exemptions showed an increase of \$561,000 over 1948 allowances.

A millage based at 14 mills on the gross tax value would raise this year, the sum of \$84,768.68, and that is the amount the City Commissioners have decided upon.

The new budget which has been considered and figured out by the city officials and the Board of Commissioners, will call for \$227,130.72, as against \$187,828.68 in 1948.

The list for Anticipated tax collections during the year are: Real estate property taxes, \$83,403.50; anticipated personal property taxes, \$10,000.00.

Several Thousand Island Workers Needed For Season

A labor meeting was held in a hall on Tuesday night, which was attended by around 60 of the area growers. This was to make a survey of the field as to the need or non-need of the importing of colored laborers from the Bahama and Jamaican islands, as has been the custom for some years past. The counselors of the evening, connected with the Federal State Labor Department, were James Gray, of the Washington area office; Willis Sloan, from the regional office at Atlanta, Ga., and Richard Robinette, from the State Employment office at Tallahassee.

These gentlemen talked turkey to the growers on the local labor situation and the Immigration Department desired to be helpful and co-operative with growers, but that the need of imported labor would have to be set up in a definite form.

The growers were told that to date no certified application had been filed in the Belle Glade office, applying for off-shore island labor for the coming season.

Men Cook For Ladies

Fish, hushpuppies and swamp cabbage served in a narrow setting of fish-bait and conch shells featured the dinner for the ladies last Saturday night.

Chief chefs Lou Betts and Cliff Livingston have been asked by the grateful ladies to give them cooking lessons.

Pulchritude unlimited radiated from the three "waitresses," "Whistle-bait" Edna Jones, "Sweater-jerk" Billy Rhodes and "Gaspis Creek" Luther Jones. Asper, Mullberg and Bair did the rest of the work.

Following dinner, lights were dimmed and dancing done to the music of the juke box.

School Expenses Have Increased In Palm Beach County The Past Four Years

In the past four years, Palm Beach County has grown in population and business like a rag weed, and this has meant expansion in the public schools, both to enrollments, and the costs of operations, and demand for new school housing construction.

Four years ago, the budget for schools was a bit over the 2 million mark and now under the recently approved budget for 1949-50 year over four million is required. The millage for the year was fixed at 15 mills, in addition to special levies in the districts, which in District 1 was fixed at 1.75 mills.

School authorities are looking for an increased enrollment of 1000 the total estimate enrollment being placed at 18,245 pupils.

Thirty-seven new teachers have been added to the school faculties. Belle Glade High School will have four additional class room teachers, and ten teachers will be required for the new colored elementary school, which will be opened in the first year.

The Board expects to be able to operate a full nine month term of school.

Miss Sarah Horton, who has taught in the South Bay schools for the past two years, has been placed in a leave of absence from her work.

New Sire Secured For Ensenamint Project At Station Temple Building

During the past year, the State Department of Agriculture purchased a pure bred Sindhi bull from India, which it placed with Ralph Kidder, at the Everglades Experiment station, but beyond using him with station cattle, his services have not gone beyond the farm projects.

The intent when purchased was to make the animal the head of an artificial insemination station, for the use of Glades stockmen, interested in dairy herds, as this breed of Brahman are of the milk producing and not for beef.

This method of impregnating heifers has not been much used in this section, but in Dade, Broward, Orange and Osceola Counties there are a number of breeders who are using this system for reproduction in their herds, with much success.

The man who is in charge of the finance committee, is the chairman of the Sindhi project was one of the cowmen who are using this system for reproduction in their herds, with much success.

Supplies Removed From VanLandingham's Left Eye

Sammy VanLandingham, a now patient at a hospital in West Palm Beach, still remains in an unconscious condition.

Surgeons found it necessary to remove the ball of his left eye, which was badly injured.

The eye was badly injured by a blow to the face, which was delivered at seven and a half o'clock on the night of the brain injury. Sammy was a victim of an auto accident more than two weeks ago.

Communion Registration Ends This Friday At 5 P.M.

No new entrants have enrolled candidates for the city commission since the past week. Clerk A. L. Wallis notes that the registration books close at 5 o'clock, this Friday night.

Election comes on September 13th.

City Visitors Get Big Kick Out Of Glades Visitation

Cities Extend Hospitality To West Palm Beach Chamber Of Commerce Caravan

An invading force of some 75 from the east coast made a friendly visit to the women of Glades area of Palm Beach and Hendry Counties, Friday afternoon, with Clewiston as the western terminus.

This was the second "Will" trip made by the West Palm Beach Chamber of Commerce headed by Ed Stumpf, its secretary, to get acquainted with Glades communities, people and business men.

The group came in a caravan group in private cars and "bus" among the visitors was Frank Rozelle, head chief pilot.

The party arrived at Canat Point around four o'clock where Frank Rozelle became chief pilot.

The new hospital soon to be built in the Glades district, the recreational park and new swimming pool, where a special aquatic program was staged for the visitors.

At Bacon Point, they were the points of interest visited in this city.

Masons Decide To Erect An L Shaped Temple Building

At the session of Belle Glade Lodge, No. 273, F. and A. M., Tuesday night, additional study was given to the plans for the proposed new temple to be erected over in the Lutz addition on Lakeside Drive.

The building contract estimates were presented for the three plans, pretty reasonably priced, ranging from \$34,500 to \$31,500.

By an almost unanimous vote, the plan for the L-shaped building was selected.

The plan for the L-shaped building was selected.

New Home of the Everglades Federal Savings & Loan Association being constructed at the Southeast corner of southwest First Street and Avenue B.

Plow And Discs Busy On Lands For Coming Fall Crops

The 1949-50 citrus season, so far as the grower is concerned is going to be a new picture, for instead of seeking buyers and selling at a low price, they can stand by and let the buyers seek the produce.

Concentrate men and Fresh Fruit market dealers want for the produce of the groves, at a price that will mean profit to the grower.

Last year 60,000 boxes of oranges were marketed, added by the Texas and California freeze outs. Estimated requirements for the present season sizes up to 85,000 boxes, and Grove owners are not optimistic that the crop will yield that volume.

If there is a 15,000 box shortage, it will mean brisk bidding for the fruit produced, and a corresponding high price for fruit.

Farm activities in the Glades have almost begun, with the cutting of weeds, and the plowing of the fallow land. Seed corn has been ordered and planted and reported as producing excellent plant stock.

Preparations are being made for an increased citrus crop, these will be more potatoes planted, and some tomatoes.

Kirk and Sons have begun tilling their bottom lands southwest of the city, for the planting of beans, cabbage, potatoes and peppers.

Price and Murphy, out on their Hillsboro plantation road property, are already well advanced with their plowing, and will produce their customary line of vegetables.

Graber and Sons have completed their extensive improvements on their packing house plant, and are planning an early start on their planting of their specialty products.

Transportation rates will pay some figure in the produce movement game this season, whether by rail or truck. The rail corporations have shown an inclination to drop some of their special assessments, and also provide free icing between the shipping and destination points.

The Elks Entertainment Committee, which Ray Whitlock, and John Tabi are wheel horses, will stage a Family Night feast at the Elks Club this coming Saturday night, with barbecue chicken and ribs as the main course.

Prisoner Forgo F.B.I. Keeps Criminal Records

James Kelly came into police court rather shyly and subdued Monday night, when he was arraigned for plunging a knife in his common law wife's leg above the knee. Jim allowed that he had only been in custody for his criminal record, if any, but he forgot that the FBI keeps records, which showed that he had been arrested 16 times and served over ten years in prison.

The court toughened the prisoner up for \$95.00 and costs. His so-called wife, Liza Sullivan, was given directions by the court that she was to remain away from the city jail.

King Williams, a newcomer here, got a fine of \$15 and costs, for driving a car without a license, and a fine of \$10 and costs, for driving a car without a license.

A prepossession white woman from Clewiston, got too much from her criminal record, when picked up by police, gave them a battle. She was held to her criminal record, if any, but he forgot that the FBI keeps records, which showed that he had been arrested 16 times and served over ten years in prison.

Florida Teacher Standings On Upward Increase

More than 15,000 of the state's 17,760 teachers will be college graduates when schools open in September.

State School Supt. Thomas D. Bailey has estimated that 84.78 of the teachers in Florida schools will hold teaching certificates based on four-year college degrees or better.

That compares with 73.4 percent in 1947-48 and only 62 percent in 1945-46 before the state adopted a policy of giving colleges more money for employing better trained teachers.

A national school survey shows Florida ranking 8th in the nation in the number of teachers with college degrees.

Bailey reported complete satisfaction with the results of the study, and said that the best qualified and highest trained teachers in the nation.

That's what we need if we desire that our children have the best instruction possible," he said.

The state school head reported an estimated 12,579 teachers will hold teaching permits during the 1949-50 school year.

Kirk and Sons have begun tilling their bottom lands southwest of the city, for the planting of beans, cabbage, potatoes and peppers.

Price and Murphy, out on their Hillsboro plantation road property, are already well advanced with their plowing, and will produce their customary line of vegetables.

MONOPOLY AT ITS WORST

Many years ago Congress passed a series of anti-trust laws to prevent monopolies and combinations in restraint of trade in this country. These laws apply to one industry after another. They pointedly exempt labor organizations. Yet, at this time certain labor leaders and labor unions are wielding power to an extent which was never dreamed of by the "robber barons" of the last century.

One of the most startling examples of this is found in John L. Lewis' order to the United Mine Workers, which he controls, lock, stock and barrel, to close down the coal mines of the United States for a period of a week. It was claimed that this was a strike in the ordinary meaning of the term, that coal stocks above ground were low, and that a brief shutdown would not seriously affect the industries of the nation. But these excuses are entirely beside the point. If Mr. Lewis can close down a vital industry at his whim for one week, why not for one day or one minute he could by the same kind of dictatorial action, close it down indefinitely. He could cause a breakdown in such essential industries as the railroads, the electric utilities, and steel, which cannot function without coal. He could tie up ships carrying coal under the Marshall Plan to other lands, and thus undermine a foreign policy which has been approved by the President and Congress. Could we have a more glaring example of absolute monopolistic power than this?

It makes no sense to criticize Mr. Lewis for what he has done in the past or what he may do in the future. The real fault lies in laws which do not recognize the industry-wide bargaining created as serious a monopoly as this country has ever faced. So long as this kind of bargaining is permitted, one man, dominated by one man, can tell the nation whether or not it shall have a commodity it cannot do without.

Congress is now considering a proposal to give the government the power to seize and operate strike-bound plants and industries. This is an expedient which totally overlooks the principle at stake. It would establish bureaucratic statism of the Hitler type. The only way out is to abolish labor monopoly practices, to make all of the equal employees of the law. The time for action is now.

The Ralph Kidders Have Celebration In Jamestown N. Y.

Mr. and Mrs. Ralph Kidders, and family, at the Experiment station, have arrived home from an enjoyable vacation trip, which they spent among the family relatives in and around Jamestown, N. Y. They were honored at many events, one in particular stands out most prominent, which marked the twenty-fifth anniversary of the Kidders' marriage. Mr. and Mrs. Lynn Heasley, who were the sister of Mr. Kidders. This was a surprise celebration and all the clans were there to make it a success, including 18 grandchildren, one grandchild, Clarence Kidders of Hollywood, not being able to be present. In an illustrated article, in which the honored guests were shown, the Jamestown Sun, on August 1st, ran this story of the event.

"Back in the 1920's four young people, including a brother and sister, were having a good time studying and dating at Michigan State College, East Lansing, Michigan. They did not realize that 25 years later that they would be celebrating their anniversary together, and that by 1949 two children of one of the couples would be attending the same college.

Yesterday the two couples celebrated their 25th anniversary at the old Kidders home, located on South Main Street, bought by their great-grandfather about 1826 from the Holland Land Company.

The couples were Mr. and Mrs. Ralph Kidders, of Belle Glade, Florida, and Mrs. Lynn Heasley (Kidders) of Midland, Michigan. The two college roommates graduated in 1923 and the girls in 1924. Their marriages were events of the month of August in 1924 at the Jamestown Kidders home and at Eaton Rapids, Michigan.

The Heasley children, Lois, is a graduate of Michigan State College and the son, Robert, is under a contract in the same college. The Kidders children are, Clarence Kidders, of Belle Glade, a student of the Alabama Poly-

DOG HOUSE

THE IMMEDIATE ANCESTOR OF THE DOG FAMILY WAS TOMARCTUS, A CREATURE THAT LIVED IN THE MIOCENE EPOCH, 15 MILLION YEARS AGO

the original home, St. Louis, the Kidders' home is located in the town of Jamestown, N. Y. The Methodist Church, donated and built by Father Kidders, which has grown into a large city congregation in the Erie Conference. Mary Elinor and Dorothy, and daughter-in-law, Barbara, is working every Sunday at the home named church.

Rusty Hendry Gone To Dog Heaven

"Rusty" the seven year old, brown and white, dog, owned by Miss Barbara Hendry, of West Palm Beach, died of a heart ailment at the corner highway, and as a result he was run over by a car and killed. Rusty was a fixture about the corner and the store and was known by everybody around the neighborhood. Naturally, Barbara, is heartbroken over her dog's demise, as he had been her affectionate companion all during his dog life.

Another Car Goes Over Six Mile Bridge

Willie Robertson, colored, on Saturday night, was driving east at Six Mile Bridge, following another car ahead, but he did not negotiate the south end of the bridge curve, and went over the embankment, the car turning over on its descent. Robertson and his riding companion escaped any serious injury. The Parish and Davis wrecker pulled the badly damaged car from its near water grave, and brought it to their garage on Sunday morning.

Chancellor Arrives Grand Lodge

At Lakeland, Florida, is a student of the Southern College, at Lakeland, Florida, and the daughter of Mr. and Mrs. Lynn Heasley (Kidders) of Midland, Michigan.

LEGAL NOTICES

NOTICE is hereby given that the Town of South Bay, in Palm Beach County, Florida, will hold a tax sale on Thursday, the first day of September, 1949, at 10:00 A. M., at the Court House, in the Town of South Bay, to sell to the highest bidder, all lands within the boundaries of the Town of South Bay, which have been assessed for the year 1948 and 1949, and which are subject to sale for taxes due and unpaid for the year 1948 and 1949. A description of said lands is as follows:

Block	Lot	Area	Owner
12	1	1.00	James Summerlin S. D.

Miss Dorothy Jones of Ft. Myers, the new school librarian, has arrived, to attend the school session in West Palm Beach.

Miss Joyce McKay has returned from her home in Tennessee, where she spent the summer months. She is recovering from a back operation, underwent while away.

Mr. and Mrs. J. K. Baker have as their guests this week Dr. and Mrs. Gamble of Lakeland. Dr. Gamble is president of the Baptist Bible Institute there. Another guest of the Bakers is their daughter Betty, down from Atlanta in the Peach State.

Mrs. L. C. Boone has returned from Fort Walton, where she visited her son-in-law and daughter, Sgt. and Mrs. P. J. Teague.

Mr. and Mrs. Frank Hobson had as weekend guests Mr. and Mrs. Charles F. Pavlece of Tampa.

Mr. and Mrs. Bennie Richmond spent several days this week in Gainesville.

Mr. and Mrs. R. Y. Crech, Sr., have returned to their summer home in Fort Myers Beach, after spending the week-end here.

WHIDDEN-BECK NUPTIALS ARE ANNOUNCED

Mr. and Mrs. A. R. Whidden are announcing the final arrangements for the approaching wedding of their daughter, Miss Patricia A. Whidden, to Mr. C. H. Beck, on Sunday, the twenty-first of August at 3:00 P.M. in the community club house. All friends and relatives are cordially invited.

The couple will leave immediately following the ceremony for Wellyville, Missouri, to visit Mr. Whidden's relatives, thence to Wisconsin, where they will reside.

GUESTS HONORED AT RECEPTION

On Thursday evening at the R. Y. Crech, Sr., residence, a reception was given by Mrs. Imogene Fontaine honoring her guests, her sister, Mrs. Mary S. Park of Chattanooga, Tenn., and her daughter, Sister Julia Clare of St. Mary's Academy, Leonardtown, Md., also her son and daughter-in-law, Mr. and Mrs.

week, show some increase in the volume of repair buildings: N. B. Willis, \$1500; Hector Supply Co., \$1000; Sam White, \$150; Luke Givens, \$300; David Lee, restoration of condemned building, \$2000; Glad Box, \$500; Almax, Inc., building repairs, \$5,000; John Hankerson, \$500; Jack Smith, \$400; E. N. Forrest, \$300; Katie McNeal, moving building, \$500.

PAR-TEE LINE

Continued from page 1

and Mrs. Wendell Lyons, Mr. and Mrs. Eddie Schoepel, Dr. and Mrs. M. D. Sigman, Mr. and Mrs. A. L. (Dutch) Wallis are the newest members of the Country Club according to word from the Board of Directors.

Family Night Pot-Luck

Hosts last Sunday night were Mr. and Mrs. W. W. Weeks, Mr. and Mrs. Ivan Van Horn, Mr. and Mrs. John T. Calkins and Mr. and Mrs. J. B. Jones.

Record Week End

Largest numbers of members and invited guests in many months turned out for the dinners Saturday and Sunday night. Thirty-five players registered for golf Sunday.

Guests were Miss Donna Hillard of Pabok, Mr. and Mrs. Norman Meldrum of West Palm Beach, Mr. Richard Harris, Mr. Walter Hooker, Mr. and Mrs. Charles Henry, Miss Norma Weeks, Mr. and Mrs. W. F. Snyder of Miami Beach, Mrs. Rosa Nash, Mr. Ter Kelley and Mr. Carl Johnson.

Coming Up

Katherine Weeks will be hostess at Ladies' Day Luncheon at 12:30 today. New members are especially welcome.

No Saturday night party will be held, because of the Elks party for the ladies tomorrow night.

Sunday night pot-luck will be served as usual, at 7:30 P.M. Home Was Never Like This: Life Can Be Beautiful

Mosquitoes have disappeared from the clubhouse since Sinclair-Kirchman donated a case of DDT fortified PD Spray. Two 48-inch fans from Lankey-Flankey make the Country Club the most comfortable spot in the area.

A full round of activities for the Labor Day weekend has been planned by the Board of Directors, who met last night. Details will appear in this column next week.

Attending Youth Fellowship Assembly At Leesburg Camp

Miss Mary Ellen Kipper, who has served one session of the Florida Youth Association at the Leesburg Methodist camp as a counselor, has been called back for the coming two weeks, where she will serve off the Leadership committee for the Assembly program. Joe Leavitt, representing the Community Church group as a delegate to the camp this week.

Cinematic Chatter

The Hugo Theatre program is loaded with entertainment for this coming week, starting with

with some of the shots being made during a real hurricane. Thursday-Friday brings Ryder Hagard's "She" to the screen, with an exceptional cast of players during a story that will never grow old. The tale of a girl who remained young and beautiful for 300 years.

On the stage Thursday comes Uncle Harvey and his troupe of hill-billy entertainers direct from WGBS, Miami, for a one night stand.

Yes, you have a fine week of entertainment at the Hugo Theatre for the coming week. See you at the movies—Mal.

Give Your Home A New Look With The Aid Of An

FHA Title I Loan

Our FHA Title I Loan enables you to proceed, pay for the work as done, and "erased the cost" over the months ahead. Make up your own list of the work to be done which may include:

exterior painting
entire re-roofing
additional rooms
new septic
garage repairs
interior changes
bathroom changes
modernize kitchen
new septic
An amount up to \$2,500 may be borrowed on convenient repayment terms. No mortgage necessary...and no red tape. Come in and discuss your plans with us. You have only 12 days to take advantage of this program unless it is extended by Congress.

NEWS
VIEWS

E. D. & BOG

In October, the vital anniversary of the American hamburger has been celebrated its 45th birthday. The European version was a disk of breaded red meat which was eaten by the children of Hamburg, Germany. The traditional U. S. hamburger made its first showing in 1904 at the St. Louis World's Fair. (Meet me, in St. Louis, Louis.) Since that time the hamburger has become a national favorite, especially since the prices of beef and pork have risen. In fact, all the hamburgers eaten in one year in the U. S. were made with one piece of meat.

The history of the famous hamburger is told in above paragraphs. A hamburger has been provided, as a special treat, for the hungry. It is a meat, onion, mustard, ketchup, salt, and pepper. It is a hamburger. It is a hamburger. It is a hamburger.

Yum, yum, but they are good as we prepare them. Cook in and crunch one of them sometimes, and we know you will be sure to be satisfied. Nothing is so good as a hamburger. It is a hamburger. It is a hamburger. It is a hamburger.

A Calif. man tried to raise chickens with his socks by putting his chickens in a box with low roof, but it only made the birds sick. Sometimes it's better to stick to stick out to say you can't beat it. O.K. D. is a prescription service. It is a service for export-compounding.

SOUTH BAY
BEAN CITY
LAKE HARBOR

Mr. and Mrs. B. M. Fender, Miss Moneva Barger, accompanied by Major Lee of Lake Harbor and C. A. Sanders of Belle Glade were the Sunday guests of Mr. and Mrs. Alfred Vadasz at their vacation seaside cottage at Jensen Beach.

Mr. and Mrs. C. E. Crichfield were the weekend guests of friends at Daytona Beach.

Pat and Virginia Rae Garner of Plant City have been house guests of Mrs. Joe Wall and family this past week.

Nick Ballas has returned from Hot Springs, Ark., much improved in health from the hot baths.

Mrs. George Jordan and sons, George and Hugh of Indian-town were the Sunday guests of Mr. and Mrs. C. E. Crichfield.

J. W. Warren, Miss Claudine Chambers, Kenneth Warren,

Mrs. Mollie Fay Walker, Junior Roger and Donna Fay Walker, Mr. and Mrs. J. C. Warren, Mr. and Mrs. W. Ferguson and children enjoyed a barbecue picnic at Fishing Creek Sunday.

Mr. and Mrs. M. E. Cooper, Jr., and Miss Kathryn Cook returned last week from a short visit with relatives, leaving Mrs. O. B. Cook who had accompanied them for a longer visit.

Mrs. Ruth Murphy, sixth grade teacher, returned from her summer vacation in Pennsylvania the last of the week and Mrs. J. W. Mathewson over the weekend.

Miss Evelyn Lee, Major Lee of Lake Harbor, Miss Moneva Barger, Mrs. Alfred Vadasz and daughter Karen spent Saturday on the east coast.

Mrs. George Jordan and sons, George and Hugh of Indian-town were the Sunday guests of Mr. and Mrs. C. E. Crichfield.

R. H. Cooper and bride, the former Mary Frances Rawls of Belle Glade, who were married at Valdosta, Ga., last week are honeymooning in Texas.

Dr. D. L. Campbell and William Fowler of Fort Lauderdale conducted services at the L. D. S. Church in Belle Glade Sunday and were dinner guests of Mr. and Mrs. H. B. Walker.

Mr. and Mrs. Jack Sisley of St. Petersburg were the week end guests of their niece and nephew Mr. and Mrs. S. L. Eckman.

Mrs. R. R. Roadman and daughter Miss Lucetta Campbell have returned from a months visit among relatives at Terra Haute, Indiana. They were accompanied by her father James Alsop of Tampa.

South Bay Area
Farmers Busy
In Their Fields

The farmers in the South Bay-Lake Harbor-Okeelanta forming area have tuned up their tractors and started fall work on a big scale.

Summer vacation time is over for the growers as well as nearly over for the school children. The land is being run down and plowed in anticipation for an early start on the fall crop of snap beans.

Planting will start on the high land around the rim of the lake within the next few weeks and herring bone disaster the first crop of fall beans can be expected to come off in September, rather than in October, reach a peak in November and early December.

Seed beds for celery were planted some time ago and the young plants are about ready for transplanting into the open field according to reports.

Some of the seasonal farm labor is already trickling back from northern parts although the big influx cannot be expected to return to the Glades until October.

Teacher Corps For
Lake Harbor Schools

Teachers have been assigned to the Lake Harbor Elementary School for the coming year. Mrs. Elia Frewitt will be principal. Mrs. Mary Alice Kendall and Hugh Cobb teachers.

Mrs. Kendall is attending the Florida State College at Tallahassee for the summer session. The others are taking part in the fall Workshop program in West Palm Beach and at the local schools.

Southshore Plantation Birthday Party

Mrs. E. W. McLeod entertained some 40 children and their mothers at a party at the Recreation Hall at South Shore Plantation Thursday afternoon, honoring her son Kenneth on his fourth birthday.

All kinds of playground equipment were provided for the entertainment of the little guests from the plantation, Bean City, South Bay and Lake Harbor. Pictures of the children at play were taken by a movie camera.

Cake, ice-cream and soft drinks were served and each little guest received a favor.

Motor Safety Program
Now On In Florida

Driver, plus driver, plus discourtesy—equal death.

This is the formula for nearly three-fourths of all highway traffic deaths according to the Florida Department of Public Safety in its August Campaign to foster greater highway courtesy.

From all indications, the chief ingredient in most highway accidents is that big, dangerous, proportion of discourtesy. These accidents, stemming mainly from someone's pig-headedness, contribute to about \$25 deaths in Florida annually.

The Florida Department of

Safety is cooperating during August with the National Safety Council in this drive which has as its slogan "Mind Your Motor Manners."

Discourtesy is so often interpreted as a mere annoyance that the public seems to lose sight of its deadliness. We tend to forgive—or at least condone—the road-hog, the lane-weaver, the speeder, and the cutter-in as long as no accident actually results from his actions. We snarl and gripe about it, but as soon as the incident is over, we're likely to be doing the very same thing ourselves within a few minutes.

This complacency and refusal to accept the fact that we are not ALWAYS right when driving contributes to more fatal accidents than all other causes combined.

The Florida Department of Public Safety and the National Safety Council classify as discourtesy such acts as: excessive speed, ignoring the right-of-way, driving under the influence of alcohol, driving on the wrong side, passing improperly, and disregarding an officer or traffic control device, according to Director H. N. Kirkman.

Return From
Coaching School

Coach "Doug" Leavitt, and Associate coach, Jim Mayner, who have been in attendance at the Florida Coaching School at Jacksonville, have returned home, after a very beneficial session and many new turns to football regulations. The men are now in attendance at the "School Shop" sessions in West Palm Beach. Coach W. H. Cooke of Lake Worth was also an attendant at the Jacksonville convention.

A. J. Richmond

BIOGRAPHY OF A. J. RICHMOND
A. J. Richmond is a native of West Virginia and was associated with the Goodrich Rubber factory thirteen years before coming to Belle Glade in 1930 and starting the Richmond Plumbing Company.

Richmond Plumbing Company is located at 324 SE First Street. Mr. Richmond is general plumbing and sheet metal contractor, and specializes in acetylene and gas welding. He is also an electrical appliances dealer, selling all major and minor appliances, including stoves, ranges, and heaters, also Diatom Insecticide paint, which keeps ants, and roaches out of pantries, and closets.

Mr. Richmond married Miss Lola Robertson, and their son, 22-year-old Benny, is a Junior at the University of Florida.

Mr. Richmond served two years in the Navy during World War I, in the Pacific and South America. He is a member of the American Legion. Fraternally, he is a Mason. He helped in the move to get the National Guards to Belle Glade.

Mr. Richmond is interested in all sports, especially soft ball, he sponsored the Richmond Plumbing softball team, financing it completely. He was chairman of the American Junior Legion Baseball Team.

Prominent in civic affairs, he is currently a member of the City Commission, and a member of the Chamber of Commerce.

Belle Glade, Florida

June and Shirley Webb, eye appealing Starlets appearing with Uncle Harvey and his "Ragtime Wranglers" at the Hugo Theatre, Thurs, Aug. 25.

HOME INDUSTRY IS
(Continued From Page 1)
moulded to fit most of the automobiles and are very easily attached, and adds a streamline effect to cars.
The reception which the new vision has been received by jobbers and auto owners has been very gratifying to the inventor and producers and he is looking forward to quite an increase so that expansion of his present manufacturing facilities will be needed, and a number of employees be given year-round work in this home plant.
If other people could muse up other like home production plants it would indeed aid out in the economy program of the Glades area. Mr. Daniels opines his line of products, in the way of wall novelties and table adornments. He has already produced a number of fast-stimulus of brem, bass and other fish. He is also messing around with cyress knots and knots.

Softball Strikes Hard At Indiantown Village
Indiantown over in Martin County does not have many attractions for its rural citizens. To overcome that situation several soft ball teams have been formed, a new diamond fitted up, and lights installed, and games will be played at least twice a week. Teams from Belle Glade, Pahokee and east coast towns have been invited to come over there to play the home team, or intercity games.

Local Shoemaker Comes Back From Arkansas Trip

H. M. Mathews, our local shoe repair man, who went to his old home at Portland, Arkansas, for rest and his health, has returned home very much improved from his atsmatic and sinus attack. He was forced to spend several days in the hospital while he was away. He reports crops looking exceedingly well that state and along the route of his trip. Mr. Mathews was accompanied home by his younger brother, Archie, who will be his guest for several weeks.

Job Placement Upward In State Says Bureau

The Florida Industrial Commission reports that its Employment Service Division filled 9,747 jobs during July, only 500 below the number placed a year ago.
However, the 15,850 persons making new applications for work was almost 2,000 above the number a year ago. A total of 66,915 were seeking employment through the 34 Employment Service offices in the state at the beginning of August.
The recruiting jobs filled rose 23 percent from June and 32 percent above a year ago. The opening of a crate mill in the Bradenton area and increased production of lumber and wood products in the Perry area, as well as increased placements in ship repair in Tampa, accounted for the upturn in manufacturing placements.
Construction placements were down 20 percent, and services registered slight decreases in July as compared with June.
Occupationally speaking, there was a 40 percent increase in the number of jobs filled with semi-skilled workers in July over those in June. Skilled placements showed an increase of 15 percent during the same period. Small declines were noted in placements of unskilled, service and clerical workers. Professional and technical placements remained approximately the same.
Florida employers have listed approximately 11,500 jobs each for June and July with Employment Service offices, only two thousand less than at the same time a year ago.

Many Government Positions Open For Applicants
A new Clerk examination was announced today by the United States Civil Service Commission for filling positions at \$2,284 and \$2,498 a year (grades CAF-2 and 3), in various Federal agencies in Washington, D. C., and vicinity.
The Commission held a similar Clerk examination last March but not enough eligibles were secured as a result of that examination to fill, on a permanent basis, the Clerk jobs now occupied by war service and temporary employees, and to fill future vacancies that will occur through turnover.
Among the types of clerk positions to be filled from this examination are: Appointment, correspondence, docket, accounting, time, leave, pay-roll, statistical, coding, test rating, property and supply, mail, file, information, proofreading, editorial, indexing, purchasing, traffic, transportation rate, etc.
No previous training or experience in clerical work is required. To qualify, applicants will be required to pass a written test which will consist of questions designed to test their aptitude for learning and adjusting to the duties of the positions. A higher standard will be required for eligibility for grade CAF-3 than for grade CAF-2. Sample questions will accompany the examination announcement. The age limits, 18 to 62 years, are waived for persons entitled to veteran preference and, under certain conditions, for war service employees.
Further information and application forms may be obtained from the Civil Service Commission's Local Secretary, Mr. M. K. Wright, located at Belle Glade Post Office, from Civil Service regional offices, or from the Commission's Washington office. Applications must be received in the U. S. Civil Service Commission, Washington 25, D. C., not later than September 6, 1949.

GULFSTREAM PARK, Hialeah, August 17—Glorious Gulfstream Park is about to round the turn a half-century ahead of its already enviable reputation as the showplace of the nation with a new \$750,000 club house now on the drawing boards.
In announcing plans for the three-quarter million dollar project today, President Jimmie Dunn of Gulfstream indicated that the Broward racing course was headed toward a program for topping the facilities of any horse track in the entire south. "With this new and modern three-story structure Gulfstream Park need not bow to any track in the country so far as facilities, beauty of environment or convenience of the public is concerned."
Pointing out the easy accessibility of Gulfstream Park to all of metropolitan Miami and the short run from Palm Beach and all points in between, there was no discussion of the logic of Dunn's comment to the effect that by topping the facilities and appearance of other tracks, it was but a step to topping receipts also.
"It's just a base of the man who makes the best mousetrap again," remarked the canny Scot. Last season's figures for the track proved that a good part of those in this portion of the world had beaten a path through the Royal-Palm shaded avenues to the pari-mutuel windows of the Broward track in the springtime meet.
With the completion of the new club house visitors to Gulfstream Park may look forward to seeing a magnificent new addition to the already beautiful "Turf By The Surf."
Plans have already been drawn up for a structure adjoining the existing grandstands at the south end. This modernistic three storied structure will combine the service features of the present building plus the beauty and added convenience afforded by such a clubhouse. Seating accommodations will serve 2,000 persons, with additional large dining room capacity.
An oval betting ring consisting of fifty windows is centered in the rotunda on the first floor. Adjacent elevators, escalators and stairways make it easily accessible from the upper floors. A bar servicing the rotunda adjoins and also serves the large dining room. Built on an angle to follow the curve of the track it overlooks the landscaped gardens. Other features include the kitchen and various storage rooms. Rest room facilities are located here as on all other floors.
On the second floor the entire east frontage is taken up with

grandstands. From here can be seen an excellent view of the track and finish line and of the oval lake in the center of the course, bright with colored sailboats. A concession is located at the rear of the grandstands.
The third floor is for members of the Turf Club. The office of President James Dunn is located here, overlooking a sizeable terrace. In addition to a lounge, it also features a second dining room. As on the second floor, the portion overlooking the track is utilized as a grandstand. It affords not only a good view of the entire track, but also a glimpse of the sea.
The overall picture of this magnificent structure is one of beauty and artistry. It is a tribute to architect, Robert M. Little and President James Dunn under whose management Gulfstream Park has become the most beautiful race course in the South.

Employment Offices Now In New Location

The State and Federal Employment Bureau offices have been moved from the Hendry block on Northwest Second street to rooms in the Belle Glade Hotel building, formerly occupied by the Beauty Shop Salon. Here they have a large and commodious office and a handy set-up for performance of work. This gives the Bureau a mid-city location, handy to locate and reach.

Another Big Land Sale Over Near Indiantown

Another large sale of farm lands over in the Indiantown sector of Martin County has been placed on record in Stuart. The Miami Fruit Industries, Inc., sells parts of four sections of land to Raymond Gier, William Gaisford, Joseph E. King and Harlow P. Davock, of Ft. Lauderdale and Dania, for \$27,100, which includes the assumption of \$13,000 mortgages. The land will be used both for vegetable raising and cattle pastures.

Are You A "GREEN-EYED" PEDESTRIAN?

No—he's not color blind, actually. But mentally he "sees green" no matter how red the light or how thick and fast the traffic. He's the pedestrian who disregards all safety warnings to dash across streets and highways in the shortest possible time, regardless of danger.

He's one of the most vexing problems of traffic and safety officers, and a heavy contributor to the 195 pedestrians who were killed on Florida's highways in our first peace year. This year his clan is increasing by leaps and bounds, literally!

Have you ever been guilty of "green eyes"? How many times have you ignored the red light and started across only to be pinned down at the half-way mark with speeding traffic fore and aft?

Take this as your personal warning. The next time your luck may not hold. Make a little life-saving resolution right now to walk safely and live longer.

THE CHIEF SAYS

Continued from page 1

should have their cars under control in approaching street intersections, bridges and stop lights.

He gives the following court suggestions to all motorists: Use hand signals to keep the driver behind you aware of your intentions.

Remember that your share of the road is the right hand side, not fifty-fifty down the middle strip.

Yield the right-of-way when the other fellow has it, and don't insist in fighting for it when someone tries to take it from you.

Give the pedestrian a break—no body is no match for 3000 pounds of steel.

Don't try to use your horn as a battering ram.

The idea that the Chief is attempting to get over to our citizens are emphasized in this safety guide none whose author is unknown.

If everyone who drives a car could live a month in bed with broken bones and stitched-up wounds, or fractures of the head.

And there endure the agonies that many people do.

They'd never need preach safety to me or to you.

If everyone could stand beside the bed of a close friend.

And hear the doctor say "no hopes" before that fatal end.

And see him there unconscious, never knowing what took place.

The laws and rules of traffic I am sure we'd soon embrace.

If everyone could meet the wife and children left behind, home where once the sunlight shined.

And look upon the vacant chair where Daddy used to sit.

I'm sure each reckless driver would be forced to think a bit.

If everyone would realize pedestrians on the street.

Have just as much the right-of-way as those upon the seat.

And train their eyes for children who run recklessly at play.

This steady toll of human lives would drop from day to day.

If everyone who drives a car would heed the danger signs.

Placed by highway engineers who also marked the lines.

To keep the traffic in the lane and give it proper space.

The accident we read about could never have taken place.

AND last—if he who takes the wheel would say a little prayer.

And keep in mind those in the car dependent on his care.

And make a vow and pledge himself to never take a chance.

The great crusade for safety can never suddenly advance.

Aparist Markham Gathers Harvest

Aparist F. C. Markham is busy these days "robbing" his wide spread New lives of their honey. He reports the harvest as very satisfactory and of excellent quality. Weather con-

ditions have been rather favorable for bee working this season.

He found several "sets" where persons had made an attempt to break into the hives, but the "busy bodies" must have made it warm for them for he got none of their gathered and stored nectar.

CITY VISITORS GET

Continued from Page 1

From Pahokee, the cortège was wheeled to Belle Glade and over the top of the dike road to see the fishing camp, then to the Country Club of the Everglades, where an embarkment was made for a rest and program period. Here H. L. Spear, assistant county agent, made a talk on the new cattle raising industry of the Glades, and H. Bair, of the Experimental Farm staff, gave a short resume of what had been accomplished in the development of the Big Joe strain of field corn, and presented each visiting guest with an ear of corn a souvenir.

From Belle Glade the caravan next visited the Anderson corn and soybean plant at Seelye Bay, and witnessed the manner in which corn is handled in various processes, both as to dry kernal corn, and as cattle feed mixtures.

The party arrived at the Clewiston Inn an hour late on its schedule. Those who desired to visit the Sugarland ranch to see the fine collection of birds and Superintendent Sid Crochet was mighty happy to show off the animals, which have been brought about by cross breedings from the leading pedigree strains, into the finest of beef cattle.

The City of Clewiston, the Chamber of Commerce and the U. S. Sugar Corporation were the hosts of the 125 banqueters, the Corporation providing the fine roast beef dinner which was served. This latter was a surprise feature of the occasion.

Ed Stumpf proved himself a versatile master of ceremonies after his introduction by Mayor Allison, of Clewiston. Ed kept the ball rolling in his introduction of West Palm Beach leaders and political office holders.

Henry O. Earwood, president of the Chamber of Commerce, doing the speaking honors for Belle Glade, Frank R. Y. Patterson for the sugarland City of Clewiston. The response was made for the visiting Chamber of Commerce by Carl Dernberg.

The toastmaster interspersed the speaking program to introduce the famed Kiwanis Club male quartet who sang three selections: "Girl of My Dreams," "Dixie Girl Waiting For A Yankee Doodle Boy," and "Sweet Kentucky Babe."

Dr. Shealy, Animal Industry Leader At University, Retires

Gainesville, Fla.—Dr. A. L. Shealy, head of the animal industry department at the University of Florida and a leading figure in the state's livestock field, is retiring August 31. After 30 years on the University faculty, he plans to enter private veterinary practice in Gainesville.

He has been named professor emeritus on the University faculty.

Since 1935 he has directed teaching, research and extension work in animal industry, including divisions of animal parasites and diseases, dairy husbandry, nutrition, poultry husbandry, animal husbandry and dairy products.

He came to the University of Florida in September 1919 as professor of veterinary science. In 1925 he was made veterinarian with the Agricultural Experiment Station and in 1928 became head of the Station's animal husbandry department.

Dr. Shealy has written, either alone or in conjunction with others on his staff, a number of popular and useful bulletins of interest to Florida animal raisers. The Agricultural Extension Service recently published two cartoon circulars prepared largely by him and dealing with livestock law prevention. Porky, the Pig outlines the tribulations of a porker in growing and getting to market, while Crumpy, the Calf tells a parallel story in the beef animal field.

Dr. Shealy has served as chairman of the Florida Livestock Loss Prevention Committee since it was organized four years ago.

A native of South Carolina, he is a graduate of Clemson and McKillip Veterinary College in Chicago.

He is a member of the American Veterinary Medical Association, American Society of Animal Production, American Association for the Advancement of Science, Florida Veterinary

which will likely be adopted for the 1950 visit.

BILL PIERCE HAS

(Continued from page 1)

into the future in the future in Glades progress." Pierce proudly states that he never took a drink of liquor or used tobacco in any form, or gambled, in the customary sense of the word, and only twice was out later than midnight.

In his younger days, he picked up a bicycle which was given to him by the late William McKinley, which he still possesses. On it he made a transcontinental trip from New York to Los Angeles, leaving the east coast city on September 3rd and made a Thanksgiving dinner with the Mayor of Los Angeles. He was also the guest of President Herbert Hoover, and the President of the Mexico.

Pierce owned a 1900 Model Sears automobile manufactured in St. Louis by the Seay's Carriage Company. Ten years ago Pierce cut quite a swath with this old jalopy, by entering it into races at West Palm Beach and Miami. He has the machine stored, and expects to some day have it rebuilt in original condition. It is very valuable as an auto relic, and some day may reach the Smithsonian Institute in Washington.

Some years ago, Pierce, by a fortunate investment, secured valuable land north of the boro canal, and on it he has a small business center, with valuable land and residential property. Pierce has been an auto mechanic, a garage proprietor, built houses and business blocks, trucked, farmed and in all has been a very busy man.

He has a pretty good insight into the ramie business, and is consulted when it comes to mechanical devices for the trade.

Turkey Raising On Increase In Florida Farms

An expected Florida production of 1,775,000 pounds of turkey by the end of this year is a lot of turkey but still inadequate to meet consumer demand in the State, the research and industrial division of the Florida State Chamber of Commerce stated yesterday in its weekly review.

"Florida's turkey raisers started last year with a production of 22,000 birds, less by 2,000 than on the first of 1948. However, the growing season has been favorable and production should exceed that of 1948. Last year 107,000 birds with live weight totaling 1,670,000 pounds were raised in the state, far below the volume needed to fill Florida's 725,000 family pots during the holidays.

"For the past two years Florida turkey raisers have received the highest prices paid to turkey raisers in any state: 50 cents in 1947 and 57.4 cents in 1948. These good prices grossed raisers \$896,000 in 1947 and \$977,000 last year."
